

6929 N. Lakewood Avenue
Tulsa, OK 74117

PUBLIC NOTICE OF NETWORK CHANGE UNDER RULE 51.329(a)

December 1, 2022

Carrier: Verizon New York Inc., 140 West Street, New York, NY 10007

Contact: For additional information on these planned network changes, please contact:

Harvey Salzberg
Global Engineering and Operations
Verizon Wireline Network Operations
140 West Street, 5th Floor
New York, NY 10007
212-519-4852

John Dunne
Manager – Global Network Engineering and Operations
Verizon Wireline Network Operations
999 West Main St., 2nd Floor
Freehold, NJ 07728
732-683-5126

Implementation Date: On or after July 3, 2023

Planned Network Change(s) will occur at the following locations in New York:

Verizon Central Office	Address	CLLI
Roslyn NY DMS Switch	277 Warner Avenue Roslyn, NY 11577	RSLNNYRODS0
Deer Park NY CS2k Switch	85 West 2nd Street Deer Park, NY 11729	DRPKNYDPPS0

This notice may also be viewed at <http://www.verizon.com/about/terms-conditions/network-disclosures>

PLEASE NOTE:

- All references to the Roslyn NY DMS switch are associated with CLLI code RSLNNYRODS0 and will not be repeated throughout this notice.

- All references to the Deer Park NY CS2k switch are associated with CLLI code DRPKNYDPPS0 and will not be repeated throughout this notice.

Description of the Planned Network Change(s):

The Verizon Roslyn NY DMS switch, located at 277 Warner Avenue, Roslyn, NY 11577, will be retired and removed from the network after all traffic served by this switch is migrated to the Verizon Deer Park NY CS2k switch, located at 85 West 2nd Street, Deer Park, NY 11729. All traffic to be migrated includes, but is not limited to, Inter-LATA (ACCESS/FG-B-D/CLEC/IXC), wireless, and paging traffic.

Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):

Competitive local exchange carriers (CLECs), interexchange carriers (IXCs, IECs), wireless carriers, and paging carriers will need to secure new trunk groups built to the Deer Park NY CS2k switch or have existing trunk groups to that switch augmented. Carriers that are code holders for access connectivity in the Roslyn NY DMS switch will be required to reposition the codes to the Deer Park NY CS2k switch.

All ASRs for the Deer Park NY CS2k switch must be received no later than May 1, 2023 to provide sufficient time to migrate the traffic described above. These direct end office trunk (DEOT) interconnections will support traffic migration for the Roslyn NY DMS switch prior to its eventual decommissioning. Local Exchange Routing Guide (LERG) change effective dates will be posted prior to decommissioning of the Roslyn NY DMS switch (**on or after July 3, 2023**). This will serve to guide interconnect re-routes of traffic for the seven (7) native codes currently served by the Roslyn NY DMS switch to reflect the Deer Park NY CS2k switch as the new home switch. All ASRs for the Deer Park NY CS2k switch must carry the project code of RSLNNYRODS0.
