Tulsa, OK 74117

PUBLIC NOTICE OF NETWORK CHANGE UNDER RULE 51.329(a)

January 3, 2023

Carrier: Verizon New York Inc., 140 West Street, New York, NY 10007

Contact: For additional information on these planned network changes, please contact:

Harvey Salzberg
Global Engineering and Operations
Verizon Wireline Network Operations
140 West Street, 5th Floor
New York, NY 10007
212-519-4852

John Dunne
Manager – Global Network Engineering and Operations
Verizon Wireline Network Operations
999 West Main St., 2nd Floor
Freehold, NJ 07728
732-683-5126

Implementation Date: On or after December 1, 2023

Planned Network Change(s) will occur at the following locations in New York:

Verizon Central Office	Address	CLLI
West 36th Street NY DMS Switch	230 West 36 th Street .New York, NY 10018	NYCMNY36DS0
Pearl Street NY C20 Switch	375 Pearl Street New York, NY 10038	NYCMNYSPS1

This notice may also be viewed at <http://www.verizon.com/about/terms-conditions/network-disclosures>

PLEASE NOTE:

- All references to the West 36th Street NY DMS switch are associated with CLI code NYCMNY36DS0 and will not be repeated throughout this notice.
- All references to the Pearl Street NY C20 switch are associated with CLI code NYCMNYSPS1 and will not be repeated throughout this notice.

Description of the Planned Network Change(s):

The Verizon West 36th Street NY DMS switch, located at 230 West 36th Street, NY, NY 10018, will be retired and removed from the network after all traffic served by this switch is migrated to the Verizon Pearl Street NY C20 switch, located at 375 Pearl Street, NY, NY 10038. All traffic to be migrated includes, but is not limited to, Inter-LATA (ACCESS/FG-B-D/CLEC/IXC), wireless, and paging traffic.

Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):

Competitive local exchange carriers (CLECs), interexchange carriers (IXCs, IECs), wireless carriers, and paging carriers will need to secure new trunk groups built to the Pearl Street NY C20 switch or have existing trunk groups to that switch augmented. Carriers that are code holders for access connectivity in the West 36th Street NY DMS switch will be required to reposition the codes to the Pearl Street NY C20 switch.

All ASRs for the Pearl Street NY C20 switch must be received no later than October 1, 2023 to provide sufficient time to migrate the traffic described above. These direct end office trunk (DEOT) interconnections will support traffic migration for the West 36th Street NY DMS switch prior to its eventual decommissioning. Local Exchange Routing Guide (LERG) change effective dates will be posted prior to decommissioning of the West 36th Street NY DMS switch (**on or after December 1, 2023**). This will serve to guide interconnect re-routes of traffic for the eighteen (18) native codes currently served by the West 36th Street NY DMS switch to reflect the Pearl Street NY C20 switch as the new home switch. All ASRs for the Pearl Street NY C20 switch must carry the project code of NYCMNY36DS0.
