**TO WHOM IT MAY CONCERN**

We refer to the Agreement or Service Order (~~“Agreement”~~) entered into between the Verizon legal entity (~~“Verizon”~~) referred to in the Inspection Pro Forma and ~~[INSERT CUSTOMER ENTITY THAT IS LISTED ON THE Agreement/Service Order]~~ (~~“Customer”~~). Enter Customer Name from Agreement/Service Order (Customer). Pursuant to the Agreement, Verizon will be providing us with network services in India (~~“Services”~~).

As the beneficiary of the Services in India we now provide the ~~signed~~attached Inspection Pro Forma completed as far as we are able. To the extent circuit ID and other details are not known to us at this time, we authorize Verizon to complete these details.

We also attach or will provide on request a Network Connectivity Diagram for the Services.

We understand that we are permitted to employ encryption up to 40 bit key length in RSA algorithm. However if we employ encryption higher than this limit, we have obtained or will obtain approval from relevant telecom authority and have or will deposit the encryption key, split in two parts with such telecom authority.

We will cooperate with and provide to Verizon all such information, records and other relevant materials, access to Services, access to equipment and software directly or indirectly connected to or interfacing with Verizon Facilities as may be reasonably required for Verizon to comply with local requirements including its License terms and conditions and/or applicable laws in India.

We understand that the completion of the Inspection Pro Forma and receipt of the relevant documentation is a critical annual compliance activity for Verizon in accordance with its Licence terms and ~~we agree to co-operate, as requested by Verizon, in completing and signing an Inspection Pro Forma and providing the required documentation~~applicable laws.

Agreed for and on behalf of:
